Umthetho-sisekelo Wobulungisa Obuqondene Nesimo Sezulu¹

1. Ubulungisa Obuqondene Nesimo Sezulu Manje

Njengama-Afrika, siphila ndawonye ezwekazini elibanzi nelihle lapho kwaqala khona umlando wabantu. Sonke sihlobene nomuntu wokuqala owahamba waqonda, waphupha, wacabanga futhi waphilisana nezitshalo, izilwane, imifula, izilwandle namahlathi. Namuhla lobu buntu obuvamile kanye nekusasa lako kusengozini enku. INingizimu Afrika ayikwazi ukuziba le nselelo. Ukusetshenziswa okuqhubekayo kukawoyela, u gesi kanye namalahle ukuze kunikezwe umnotho kanye nomphakathi amandla kwenza ukuthi ezinye izidalwa zingakwazi ukuphila emhlabeni wethu.

Umhlaba ulinyazwa isimiso esibeka phambili inzuko ngaphambi kokuphila. Unyaka ngamunye, amazinga okushisa ayanyuka okunemiphumela eyinhlekelle. Ukunyuka okungu-1-degree Celsius kwezinga lokushisa leplanethi kusukela ekuqaleni koshintsho lwezezimboni, yonke into ishintsha ngokushesha: ukwanda okuthusayo kwesimo sezulu esibi (izomiso, izikhukhula, imililo yequbula, izinkanyamba, izishisandlu), ukuwohloka kwesimiso sezemvelo, ukunyuka kwamazinga okuphakama kolwandle, ndawonye nezingcindezi ezinkulu ezimisweni Zomhlaba. Siyadabuka ngenxa yokuthi silahlekelwa ikusasa elinesimo sezulu esigxilile. Isomiso sethu sakamuva sisifundise isifundo. Sicasukile ngenxa yokuthi ababusi bethu abasilalele. Ukungalingani nokuhlupheka kwabantu bethu, okuhlanganisa naphakathi nobhubhane lwe-Covid-19, sekuvele kwaba kubi nakakhulu. Nokho, sinethemba ngenxa yokuthi isayensi yesimo sezulu isohlangothini lwethu.

¹ Lo Mthetho-sisekelo Wobulungisa Obuqondene Nesimo Sezulu uvela ngemva kweminyaka eyisithupha yokuhkasa, phakathi nesomiso esibi kunazo zonke emlandweni waseNingizimu Afrika, okwensiwe yi-South African Food Sovereignty Campaign kanye ne-Cooperative and Policy Alternative Centre. Usekelwe egalelwani elifakwe abantu abavamile abavela emphakathini ebhekene nengcindezi yamanzi, abezindaba, abasebenzi, imiphakathi yamakhola, intsha, ososayensi besimo sezulu, izifundiswa, izinhlangano zabisefazane, izinhlangano zemvelo nezobulungisa bomphakathi, kanye, nemibhalo ekwenza ucabange ebhalwe izishoshovu ezihamba phambili. Inkoma eyaqhutshwa ngo-November 2019 yahlanganisa idrafti eyafakwa ku-inthanethi ukuze umphakathi uphawule ngayo. Umzuliswano wokucina wegalelo lomphakathi wanikezwa Emhlanganweni Wobulungisa Obuqondene Nesimo Sezulu owaqhutshwa ngo-16 June 2020. Le dokumenti iwumphumela wale nqubo yengxoxo kanye nomzabalazo wobulungisa obuqondene nesimo sezulu.

Njengesayensi ye-Covid-19, isayensi yesimo sezulu idinga ukuthi sithathe isinyathelo sokunakekela manje. Lo Mthetho-sisekelo ubiza bonke abanendaba nokuphila kwabantu nokungekona okwabantu ukuthi bathathe isinyathelo ndawonye ekuthuthukiseni umbono weningi – wamaphupho abantu, okuhlukile kanye nezifiso zoshintsho olufanele olujulile.

Izimayini, izicwengi, izindawo zokushisa udoti, izindiza, izimboni zikasimende, kanye nezimoto kulethe ukungcola komoya, ukugula, ubutha kanye nokuhlupheka emphakathini. Ezolimo ezisekelwe kumakhemikhali kanye nasekuthumeleni zinegalelo ezifweni ezinhlobonhlobo. Nokho sikhetha ngamabomu ukuqeda impi nemvelo. Ngezifundo ezifundwe mayelana nalezi zingozi kanye nokubaluleka kwezinto ezifanayo ezinika ukuphila (umhlabo, amanzi, ukuhlukahluka kwezinto eziphilayo, amandla, isimiso somhlaba nomkhakha wezobuchwepheshe), siyaqhubeka nokuthuthukisa ukuzibophezelwa kwethu kwezobulungisa, obugxile emandleni abantu. Yingakho, sikhetha ngamabomu ukuqeda impi nemvelo.

Izimo ezengeziwe ezithusayo eziqondene nesimo sezulu kanye nezinhlakelele zemvelo zizophumela ekuhluphekeni okwengeziwe (kanye nobhubhane olwengeziwe), eningini, ikakhulukazi izisebenzi, abampofu, abantu abakhubazekile, abangenawo umhlabo kanye nalabo abayizisulu. Lezi akuzona nje izinhlekelele ezingokwemvelo kodwa ukuhluleka kobuholi. Njengoba sivikela ukuphila okunhlobonhlobo futhi siphila nokuwohloka kwesimo sezulu, sifuna ukuqedu ukungabinabulungisa obuqondene nohlanga, isigaba, ubulili nezemvelo. Asikwazi ukuvumela abantu besifazane kanye nezingane ezivamile ukuthi bathwale ubungozi bale nhlekelele, njengaphambi naphakathi kwe-Covid-19. Umsebenzi wokunakekela ongabonakali emakhaya kanye nokuzidela kwabantu besifazane emphakathini entulayo kunegalelo ekuthibeni umkhawulo wokuhlupheka kuyilapho kuqhube ka ukubusa kwabantu kanye nobudlova. Umphakathi ongenayo i-carbon kanye nezimiso ezisebenzayo ezisekela ukuphila usho inkululeko yabo bonke, okuhlanganisa izizukulwane zesikhathi esizayo, kulesi simiso esibulala imvelo. Lona umzabalazo wesikhathi sethu kanye nomsebenzi wethu ongokomlando njengabantu

baseNingizimu Afrika, njengabantu kanye nengxenye ebanzi yomphakathi ophila emhlabeni.

2. Imigomo Yomthetho-sisekelo

Lo Mthetho-sisekelo uhlose:

- 2.1 Ukuthuthukisa ukuqwashisa ngokuthi siyachuma futhi siyaphilisana kuplanethi eyodwa. Umhlabu uyikhaya elivamile lazo zonke izidalwa. Ngenxa yalokho, sifuna ukuqinisa indima yethu kanye nezibopho njengabanakekeli besimiso sezemvelo seplanethi yethu kanye nezinhlobonhlobo zokuphila okubuthakathaka obusekelwa yiyo.
- 2.2 Ukukhuthaza ukuhlukana nokucabanga okubangele inhlekelele futhi okuqinisa ukukhathazeka ngentuthuko, inqubekela-phambili kanye nokubusa. Amandla obuntu anqandwa imikhawulo, imijikelezo, iziphetho kanye nemingcele yazo zonke izimiso zemvelo. Ukucabanga okufanayo okulimaza Umhlabu, kuwupoqa ukuthi usabele ngamandla esingakwazi ukumelana nawo.
- 2.3 Ukuhumana kabusha nombono ogxile Emhlabeni ngokuqondene nokuthi kusho ukuthini ukuba umuntu. Imvelo ayinawo umkhawulo, futhi siyingxenye encane yayo. Kufanele sikwazise ukuthi ingxenye ngayinye yesimiso semvelo inokubaluleka okungokwemvelo futhi kufanele ihlonishwe.
- 2.4 Ukugxilisa ukusebenzisana. Sichuma kakulu njengabantu lapho sibonisa ubumbano, sabelana, siphila kancane, sikhululekile, siqinisekisa izidingo zethu futhi silondoloza izisekelo zomhlabu wethu wokuphila. Sesifikile isikhathi sokuthi njengabantu sibekelo inselelo umbono wokuba nobugovu, ukuhaha, wokuncintisana, wodlame nokunqobana.
- 2.5 Ukunqoba inhlekelele yobuholi bezopolitiki obulawulwa abamabhizinisi, obungakwazi ukucabangela isikhathi eside, imidlalo ethi ‘ibhizinisi njengokuvamile’ futhi ehluleka ukuqonda izimbangela eziyinhloko

zezinkinga. Siyasinqaba isixazululo esingamanga esinweba ukusetshenziswa kwe-carbon futhi esikhuthaza isimiso esingalungile esilimaza ukuphila.

2.6 Ukuqinisa inkululeko yethu, umthetho-sisekelo wezwe kanye nomthetho-sisekelo wezwe oletha ushintsho, ngokusebenzisa amalungelo ethu futhi sakhe amandla abantu ahlangene, njengoba sibhekana nesimo esiphuthumayo sesimo sezulu kanye nenhlekelele yesimo sezenhlalo.

3. Izimiso Zoshintsho Zobulungisa Ezigxilile

Wonke umphakathi, isigodi, idolobhana, idolobha kanye nendawo yokusebenza kufanele ikhuthaze ushintsho lobulungisa olugxilile ukuze kuqinisekiswe ushintsho lwasimo sezenhlalo. Izimiso ezilandelayo zizoqondisa okuhlukile, izinhlelo nezinqubo eziqondene noshintsho lobulungisa olugxilile emiphakathini yethu:

3.1 Ubulungisa obuqondene nesimo sezulu: Labo abangenaso isibopho esikhulu akufanele balinyazwe noma bathwale izindleko zemithelela yesimo sezulu. Yingakho izidingo zezisebenzi, zabampofu, zabangenawo umhlaba, abantu abakhubazekile, abantu besifazane abavamile, izingane kanye nemiphakathi ebuthakathaka kufanele ibe enkundleni yoshintsho lobulungisa olugxilile. Izinzuso zoshintsho lwasimo sezenhlalo kufanele zabelwe ngokulinganayo.

3.2 Ubulungisa bezenhlalo: Ubulungisa obuqondene nesimo sezulu bungulungisa bezenhlalo. Ukubhekana nazo zonke izinhlobo zokucwaswa nokucindezelwa njengoba kuhlobene nohlanga, isigaba, ubulili, ucansi nobudala, ukuze kuvikelwe ubulungisa obuqondene nesimo sezulu nezenhlalo.

3.3 Ukuphila okugxile kwimvelo: Ukuphila ngendlela elula, kancane kanye nokuqapha, ngendlela egxile kwimvelo, okuqaphela ubungcwele kwazo zonke izinhlobo zokuphila, ukuxhumana kwethu futhi okuvumela izimilo zenhlonipho nokunakekela.

- 3.4 Inkululeko edinga ukuthi ubambe iqhaza:** Zonke izinqubomgomo zesimo sezulu kanye noshintsho lobulungisa olugxilile kufanele lusekelwe emazwini, imvume nezidingo zabo bonke abantu, ikakhulukazi labo ababhekene nobungozi.
- 3.5 Ubunikazi bomphakathi:** Ezindaweni zokusebenza nasemphakathini, amandla abantu kufanele aboniswe ngokulawula okubonisa inkululeko nobunikazi, okuhlanganisa ngezinsiza zomphakathi okhululekile, amabhizinisi, amalungelo afanayo okusebenzisa umhlabo, ubunikazi bomphakathi kanye nokuhlela okudinga ukubamba iqhaza, okuhlanganisa ukubamba iqhaza esabelweni sezimali, emadolobhaneni nasemadolobheni, ukuze kuqinisekiswe ukulawulwa okuhlanganisiwe kwezinto nezimiso ezifanayo ezinikeza ukuphila.
- 3.6 Ubumbano Iwamazwe omhlaba:** Umzabalazo wawo wonke umuntu ungumzabalazo ohlanganyelwayo wokulondoloza ukuphila. Emogweni wezinto ezithusayo eziqondene nesimo sezulu, ubumbano Iwamazwe omhlaba lubalulekile oshintshweni lobulungisa olugxilile njengoba iuhloselwe ukuhlanganisa bonke abalwela inkululeko kanye nomhlaba ongenayo i-carbon.
- 3.7 Ukuphela kokulawulwa kwamanye amazwe:** Ukuthonywa ngokulawulwa amanye amazwe, ukulawulwa ngokwezomnotho kanye nobushiqela kusiqhuba ukuthi siye enkathini yokuphela kwabantu. Lokhu kusekelwe ekuthanden i kwethu ukukhipha imikhiqizo engokwemvelo emhlabeni ukuze siyidayise, ekuthanden ubuchwepheshe, evezimali, ubudlova nezimakethe. Sizozikhipha ngokuqhubekayo kule sistimu njengoba siba nobudlelwano benkululeko phakathi kwabantu kanye nemvelo engebona abantu egxile kumlando wethu, isiko, ulwazi kanye nomzabalazo obanzi wabacindezelekile emhlabeni.
- 3.8 Ubulungisa bezizukulwane:** Ukunakekelwa kwezinto ezifanayo zeplanethi yethu nezimiso zezemvelo kubalulekile ukuze kubo nobulungisa

bezizukulwane; ukuze sivikele ikusasa lezingane zethu, intsha kanye nalabo abangakazalwa.

4. Amasistimu Ahlukile Oshintsho Lwenguquko

Sibhekana nezimo ezibucayi eziningi kodwa isimo esibucayi esiqondene nesimo sezulu yisona esiyingozi enkulu. Ngokubhekana nesimo esibucayi esiqondene nesimo sezulu, esithinta yonke into, singakwazi ukuthuthukisa izixazululo zazo zonke izimo ezibucayi eziqondene nezezenhlalo futhi ngokuvamile siqede impi nemvelo. Amasistimu ahlukile ayadingeka ukuze sibhekane nezimbangela zoshintsho oluqondene nesimo sezulu, izingozi zalo nezingcindezi zokuthi amasistimu awe.

Okukhona okuhlukile okungasetshenzisa njengezinto zokubasa, ezingakwazi ukuhlangabezana nezidingo zethu eziyisisekelo, kuthuthukiswe umthamo wethu wokubhekana nezinhlekellele zemvelo futhi silungiselelwwe ukuthi sikhiqize kabusha amasistimu asekela ukuphila. Amasistimu ahlukile anjalo acatshangiwe futhi ayingxenye yomzabalazo wabantu wokuqedo i-carbon emphakathini manje njengengxenye yoshintsho lobulungisa olugxilile. Sizibophezele ukuthuthukisa okuhlukile okunjalo kanye noshintsho lwamasistimu enkululeko angezansi.

4.1 Izinhlelo Zenkululeko Noshintsho Lobulungisa Olugxilile: Izindlela ezsuka phezulu ziye ezansi zoshintsho lobulungisa obugxilile zicabanga ukuthi abantu abakwazi ukuzicabangela futhi abanazo izimpendulo. Ndawonye, wonke umphakathi nendawo yokusebenza idinga ukuthuthukisa uhlelo loshintsho lobulungisa olugxilile. Lokhu kufanele kwensiwe ngendlela yenkululeko ukuze kuvunyelwe ushintsho lwamandla lokuqedo i-carbon, kuyilapho kuhlangatshezwana nezidingo ezibalulekile, futhi kuthuthukiswa amasistimu ahlukile, imigomo nezimiso njengoba zibekwe kulo Mthetho-sisekelo.

4.2 Amandla Avuselelekayo Umphakathi Ongumnikazi Wawo Nasekelwe Emphakathini Ngokukhishwa Okusheshayo Kwezinto Zokubasa Ezimbiwa

Phansi: Ukuncika kwethu emalahleni, kuwoyela nakugesi kufanele kuphele njengoba kusheshisa ukuwohloka kwesimo sezulu, ekugcineni okuzoholela emhlabeni okungaphileki kuwona. Amandla enuzi ayingozi futhi ayabiza. Esikhundleni salokho, sizokhuthaza amandla avuselelekayo umphakathi ongumnikazi wawo kanye nagxile emphakathini (afana nelanga, umoya, amanzi namagagasi), asekelta isabelo sezimali okwazi ukubamba iqhaza kuso kanye nemihlomulo (njengokukhokhelwa ngokuzikhiqizela ugesi) yezindawo zethu zokusebenza, amakhaya nemiphakathi. Ubuchwepheshe bamandla obunjalo kufanele benziwe okwezimboni eNingizimu Afrika, kusetshenziswa amandla avuselelekayo. Ukusetshenziswa kahle kwamandla nobuchwepheshe kuzobaluleka kulolu shintsho. Ukuncishiswa kokusetshenziswa kwezinto zokubasa ezimbiwayo, kanye nokuphela kwezibonelelo zokusetshenziswa kwezinto zokubasa ezimbiwayo kanye nokuphela kokumonyulwa (okufana ne-fracking, izimayini zamalahle ezengeziwe kanye nokumonyulwa okwenziwa olwandle) kubalulekile. Bonke abakhiqizi abakhulu bamandla abafana no-Eskom kanye no-Sasol kufanele bazibophezele ezinhlelweni zoshintsho lobulungisa olugxilile, ukuze kuvikelwe izinzuko zabasebenzi, imiphakathi ethintekile nezizukulwane zesikhathi esizayo.

4.3 **Ukuzon dla Ngokuzimela Kwezokudla:** Isimiso samanje semboni yezokudla sikhiqiza indlala, sisebenzisa amanzi ngendlela engafanele, sibulala imvelo, sidedela i-carbon futhi ngokuvamile asinayo impilo. Ukudoba kwezentengiselwano kubulale isimiso sasolwandle futhi kubukele phansi amalungelo abadobi abavamile. Wonke umphakathi kufanele ubeke phambili ukulima okwenziwa ngezinga elincane, okulondoloza ezolimo ukuze kuhlangatshezwane nezidingo zasendaweni. Ilungelo lokuthola ukudla kufanele linikeze abakhiqizi bokudla, abadobi besilinganiso esincane, abahwebi abafufusayo kanye nabathengi amandla phezulu kwestimu yabo yokudla evamile ukuze kuqinisekiswe ukuthi bonke bathola ukudla okufanelekayo ngokwesiko futhi okunomsoco. Ngaphezu kwalokho,

ukuhlukahluka kwezinto eziphilayo, ukulawulwa kwezimbewu nezinsiza zokukhiqiza kudinga ukuqinisekisa ukubaluleka kolwazi lwendabuko, izimakethe zendawo, ukulawulwa kwamanzi abo bonke, ukusebenza komhlaba ngokwezenhlalo, kanye nempilo enhle. Amapulazi amakhulu adinga ukuthi angabi sendaweni eyodwa ukuze kuqinisekiswe ukuthi kunobulungisa bezomhlaba, kodwa ngendlela ekahle, eqinisa ukubuyisana futhi eyakha ubumbano.

4.4 Ukwenza Amanzi Atholakale Ngokwentando Yeningi: Amanzi alawulwa yingcosana kuyilapho abantu abanangi bewadinga kakhulu. Amapulazi ezimboni, izimayini, ugesi ophehlwa ngamalahle, amahlathi kamoba nawezingodo aphakathi kwalabo abasebenzisa kakhulu amanzi. Ukuze kuzuze umphakathi, amanzi adinga ukulondolozwa yibo bonke futhi kufanele avikelwe ukuze angangcoli. Ngaphezu kwalokho, ukusetshenziswa kwamanzi kufanele kuhlelwne ngokwentando yeningi futhi kulawulwe ngendlela ephumelelayo kuyilapho kuqiniswa amalungelo ezakhamizi okusebenzisa le nsiza eyimvelakancane neyigugu. Izingqalasizinda zamanzi nokukhucululwa kwendle kufanele zithuthukiswe, zilawulwe futhi ziqashwe ukuze kuqinisekiswe ukuthi zisetshenziswa kahle. Ukongiwa kwamanzi ngenxa yokuyeka ukukhiqiza amalahle kanye nokulima okukhulu kwezinga lezimboni kuzothuthukisa amanzi abo bonke. Kufanele kukhuthazwe ukwakhiwa komphakathi oqwashisiwe ngamanzi.

4.5 Jabulela Ukuphila Ngokusebenza Kancane: Ukusebenza kwavo wonke umuntu njengendlela yokuphila futhi athole iholo akusanakwenzeka. Ukungasebenzi, imisebenzi eholela kancane kanye namahora okusebenza amade alimaza umphakathi. Emhlabeni oshisayo, amahora okusebenza kufanele ancishiswe, okungenani kube okwezinsuku-ezine ngeviki. Imisebenzi efanelekayo, engakhiqizi i-carbon kufanele iqinisekiswe futhi isekelwe yiningi, nezindlela zokukhiqiza ezisekelwe enanini nezigxile kwimvelo, ukusetshenziswa, ukusekelwa ngokwezimali kanye nezindlela zokuphila ngomnotho wobumbano. Umnotho onjalo usekelwe ezidingweni

futhi usebenzisa amandla omnotho ngokwento yeningi. Ndawonye nesistimu yesibonelelo seholo eliyisisekelo lendawo yonke (I-UBIG) ehambisana nemikhiqizo yomphakathi ekhona kakade, zonke izisebenzi zingavikelwa kushintsho oludingekayo futhi nomphakathi wonkana uzokwazi ukunetheze ka. I-UBIG izokhuthaza ngokuvamile ukuchuma kwesikompilo labantu emphakathini ongasasebenzi.

4.6 Ezokuthutha ezinobungane kwimvelo kanye Namasistimu Ezokuthutha Umphakathi Anamandla Ahlanzekile:

Imboni yezimoto ithwele umthwalo omkhulu wokubukela phansi amasistimu ezokuthutha umphakathi anamandla ahlenzekile kanye nokutshala izimali ngendlela emoshayo kuzingqalasizinda zomgwaqo ezibizayo. Lezi zinto ezilimazayo zingaqedwa ngokusekelwa okukhulu kokuhamba ngezinyawo, amabhayisikili, izithuthuthu ezisebenzisa amandla ahlenzekile, amahhashi nezimbongolo njengezindlela zokuthutha ezinobungane kwimvelo. Amadolobha namadolobhana adinga ukungabi nazimoto futhi anikeze izingqalasizinda zezokuthutha ezingobungane kwimvelo. Wonke umphakathi udinga ukufakwa kuhlelo lwezokuthutha olukhulu oluhiela amabhasi, izitimela nama-tram ahamba ngamandla avuselelekayo kanye nobuchwepheshe be-hybrid obusekelwe ekukhiqizeni kwasendaweni okunobungane kwimvelo. Ukuthuthwa kwezimpahla kufanele nakho kushintshele kujantshi. Izimoto ezingasebenzisi ugesi ezisebenzisa okubaswayo okumbiwayo kufanele ziphele. Ezokuthutha zasemoyeni nasolwandle kufanele nazo ziyeke ukusebenzisa i-carbon noma ilinganiselwe.

4.7 Ukungamoshi Nokuphila Okulula:

Ukuthengwa ngobuningi kwemikhiqizo kanye ‘nezindlela zokuphila zosaziwayo’ kusebenzisa izinsiza, kuyamosha futhi kugxile ku-carbon. Ngaphezu kwalokho, izindawo zokulahlha udoti, zokushiswa kukadoti nokungcoliswa komoya wendawo ezungezile kuyingozi. Ukungamoshi kuvala igebe ngokuthi izinto zilondolozwe, zisetshenziswe kabusha, izimiso zomnotho zokubumbana kanye nomklamo olondolozekayo kumnotho wethu ukuze kube nokumonyulwa okuncane (noma kungabi

khona) kwemikhqizo engokwemvelo. Ubuchwepeshe obuthile, obufana noplasisitiki osetshenziswa kanye, kufanele buvalwe. Ndawonye nokuphila okulula, singakwazi ukuphila nezinsiza ezincane kanye negxathu le-carbon.

4.8 Izindlu Zomphakathi, Izakhiwo Namadolobha Oshintsho Anobungane

Kwimvelo: Izindlu eziningi ezikhona aziklanyelwe ukubhekana nezimo ezibucayi zesimo sezulu. Ngaphezu kwalokho, baningi abantu abangenazo izindlu emphakathini wethu kuyilapho abantu abacebile benezindawo zokudlala igalofu. Sidinga ukuthi senze izakhiwo nezindlu ezikhona kakade ukuthi zikwazi ukubhekana nokushisa nesimo sezulu esingesihle. Ngendlela efanayo, izindlu ezintsha kufanele ziklanywe njengengxenye yemiphakathi, izigodi, amadolobhana, izinhlelo zokuqashisa zikamasipala namadolobha anobungane kwimvelo lapho izindlela zokwakha zisebenzisa izinto ezingokwemvelo, zibe nomthelela omncane endaweni ezungezile futhi zihlinzekale izidingo zomhlaba zezenhlalo yomphakathi kabantu ngabanye njengengxenye yomphakathi. Izidingo ezinjalo ezendawo yokuhlala, ukukhiqizwa kokudla okuhambisana nezolimo okunobungane kwimvelo, ukusetshenziswa kwamanzi ngendlela elondolozekayo, ukuhlukahluka kwezinto eziphilayo, ukukhulisa abantwana nesiko. Usimende awusetshenziswa kulo mongo njengoba usebenzisa i-carbon eningi futhi kufanele uyekwe njengobuchwepeshe bokwakha.

4.9 Ngaphezu Ezomnotho Ezivamile (Ngale Kweomnotho Ezivamile):

Umcabango wokuthi ezomnotho zimayelana nendlela yokuziphatha yabantu, imvelo, izinzozo, izimakethe, imikhiqizo nokukhula ushabalalisa yonke into. Ezomnotho ezivamile zithethelela ingcebo yabantu abambalwa, ukusebenzisa kwabo izinsiza ngendlela engeyona, kanye nokungcoliswa komoya okuwumphumela kanye nokuhishwa kwe-carbon. Iminotho yethu kufanele ikhonze izidingo zethu njengezidalwa zomphakathi wendawo ezungezile kanye nezidingo zemvelo. Sidinga ezomnotho ezicabangela igxathu esilenzayo endaweni ezungezile, injabulo, inhlalakahle, ukululama kwendawo ezungezile (ngokuhlaziya okwenziwa njalo), okwabantu bonke,

kanye nemingcele yeplanethi. Iminotho yethu kufanele igxile emibonweni nakumathuluzi ahlola isimo sazo zonke izidalwa eziphilayo futhi iqede umonakalo kubantu kanye nemvelo engebona abantu. Lokhu kufanele kube isisekelo sokusethwa kwe-ajenda, inqubomgomu, ukusetshenziswa kwezinsiza nokuhlela ngokwentando yeningi.

4.10 Abantu Abacebile Kufanele Bakhokhe Isikweletu Sabo Sezemvelo: Abantu abacebile emiphakathini yethu basebenzise izinsiza ngokwedlulele, babenomthelela ongemuhle ezimisweni zemvelo, futhi bakhiqize i-carbon kakhulu. Basikweleta sonke isikweletu sezemvelo futhi kufanele bathwale umthwalo wezezimali woshintsho lobulungisa olugxilile. Lokhu kusho intela yesikweletu sesimo sezulu kulabo abacebile; izintela eziphakeme ekuhambeni ngezindiza, amajethi omuntu siqu, izimoto zikanokusho kanye nezimoto zikagesi; intela ye-carbon eqhubekayo eqondiswe ezinkampanini ezingcolisa umoya ezingayeki ukusebenzisa i-carbon ngokushesha; kanye nemali ekhokhwayo eqondene nobulungisa besimo sezulu ekhokhwya izinhlangano nohulumeni abayizigebengu zokusethenziswa kwe-carbon. Abasebenzi badinga ukulinganisa imali yomhlalaphansi nemali ye-provident, ngokulawula komsebenzi, ukuze kuqinisekiswe ukuthi ushintsho lobulungisa olugxilile luulangabezana nezidingo futhi lusekela ukudalwa kwebhange likazwelonke eliyi-cooperative ukuze kusizwe izindawo zokusebenza, imiphakathi namakhaya ngoshintsho Iwamandla avuselelwayo kanye nokufewza kwezinhlelo zoshintsho lobulungisa olugxilile.
